

QuickHMI individual training

as of Dec. 2019

This workshop is for anyone who is responsible for, designing, planning or executing HMI development for software or machinery. You will get an overview of the QuickHMI system and an insight into the optimal usage.

You already have the basic knowledge and would like to go deeper into the topic of "visualization with QuickHMI" and also receive practical and valuable tips?

Of course, we would be happy to organize a workshop specifically for your individual knowledge, needs and requirements.

Please do not hesitate to contact us by phone or by email at training@indi-systems.de for a customized workshop.

During the course of a webinar (about 3 hours), we will talk directly to you and your employees, the preparation of a project will be dealt with as an example, and questions will be answered directly.

Your advantage: The professional introduction, you save the cost of own training. After the training you will be able to handle the QuickHMI system safely.

We offer our training as a webinar as well as a workshop at your location.

Cost of a webinar:
450,00 € + VAT

If you order individual training together with a license, you will receive a 25% discount on the training.

Several persons of a company can participate in the webinar, the max. Number of participants is limited to 5. The duration of a webinar is limited to 3 hours and is conducted in English language. As a technical requirement, a PC with Internet access and a telephone for conference calls are required.

For a workshop at your location, the costs depend on various factors, such as: Amount of travel expenses, route.

If you are interested, please contact us by email at training@indi-systems.de or telephone. We are happy to hear from them.
